### Written Explanation of Memory box Items

For each of the **five** items you include in your memory box, explain in complete sentences what the item is, where it came from (or significance) in the story, and why it is special to the character. What events have occurred? What might your character keep to remember these events? Remember that you can create fake items for your memory box but make them seem realistic. **Do not use the items in Scout's cigar box or the items in the knothole!**
