

A Parent's Guide to HomeLogic

Parent involvement is critical to the advancement of a student's education. Through HomeLogic, parents are provided up to date information about their child's progress in school. Grades, attendance, student schedule, messages and class assignments are available for viewing through HomeLogic.

Please use the username and password information that was emailed to you. **Remember that the system is only as secure as the passwords, so please keep your password in a safe place.**

Schedule This allows you to see what classes are coming up in the week. You can check past and future weeks by clicking on the navigation arrows on either side of the schedule.

Attendance The attendance form illustrates your student's attendance records, and can be sorted either by class or by date. Please note that absences are counted by class period not by full day.

Grades The main screen on the right, will show a listing of all the course grades that have been currently entered into the system for a student. *Grades to date are entered every Monday. However, depending on the time frame for completing assignments, and adequate time for grading, there will be some assignments that are posted, but no grade available at that time.* By clicking on the course name (on the left side of the screen), you can then view your student's grades, and assignments for that particular course, in the screen on the right. Please note they are by grading period (quarter or semester). The grading period is clearly labeled in the right screen under "caption".

Assignments Lists assignments for all your student's classes.

Class Events Events/activities that have been assigned to your student's classes are available. Parents may view activities the instructor has created for the selected class.

Grades History This screen shows a transcript of all the classes your student has taken.

Fees This form lists itemized fees that have been charged to your student as well as any payments that have been made.
