

H1N1 Flu Clinic for **High Priority Target Groups**

When: Sunday, November 1 from 9:00 a.m. – 3:00 p.m.
The doors will not open before 9:00 a. m.

What: Injectable H1N1 flu vaccine will be available

Where: DeKalb County Health Department, 2550 North Annie Glidden Road, DeKalb

Only For: High Priority DeKalb County residents in the following CDC target groups:

- Pregnant women
- People who live with or care for children younger than 6 months of age
- All people ages six (6) months through 24 years of age
- Persons aged 25 through 64 years who have health conditions associated with higher risk of medical complications from influenza
- Health care and emergency medical services personnel

The Health Department asks for your cooperation in meeting the above criteria to receive vaccination. No appointment is necessary. Vaccines are free of charge and given on a first come first serve basis.

Instructions for the clinic:

Minor Children: Children under the age of 18 must be accompanied by a parent or legal guardian.

Clothing: Wear short sleeves for easy access to upper arm for injectable vaccine.

Wait time: Expect an extended wait. Bring items for children, such as water, snacks, and diapers.

Traffic: Due to expected traffic volume, **ENTRANCE** to the Health Department will only be off Dresser Road, with the **EXIT** only onto Annie Glidden Road

Consent Forms: Consent forms for this clinic for individuals 3 years and older are on the Health Department H1N1 flu website. This form can be printed, completed, and brought to the clinic. Forms for 6 months to 3 years will be available at the clinic.

Vaccination Fact Sheet: Please review the **Vaccine Fact Sheets**. You will not be given the vaccine if you are: (1) Allergic to eggs (2) Had a fever of 100° or greater in the past 24 hours (3) Have had a life threatening reaction after a dose of seasonal flu vaccine

** In addition to the Health Department, vaccinations will be available at a large number of DeKalb County health care providers and pharmacies in November and December. Northern Illinois University will also be receiving vaccine for their students.*
