

NOTICE FROM THE DISTRICT OFFICE

Information for parents and students regarding H1N1 virus:

As many of you are aware from the media, the H1N1 influenza virus is spreading,, and at this time, there are no blood confirmed cases in the Indian Creek School District. There are, of course, students who have other viral symptoms such as influenza A, upper respiratory infections, sore throats (including strep), etc. If there is a blood confirmed case of H1N1 within the Indian Creek School District, we will notify you through a posting on the district website.

There are 3 C's to remember:

1. CLEAN - Wash your hands frequently to prevent the spread of germs.
2. COVER – Cover your cough and sneeze with a tissue or sleeve, not your hand.
3. CONTAIN – Contain your germs. STAY HOME if you are sick.

If your child is sick, please do not send him or her back to school until he or she has been fever free, without fever reducing medication, for 24-48 hours and is not showing significant symptoms.

When calling in an illness for your child, please let the office know if he or she has a fever with cough and/or sore throat.
