

H1N1 Flu Clinic for **Priority Target Groups**

Sycamore

When: Wednesday, December 9, 2009 from 3:00 p.m. – 6:00 p.m.
Vaccinations will not begin before 3:00 p.m.

Where: Sycamore High School
Spartan Trail, Sycamore, Illinois 60178

INSTRUCTIONS FOR CLINIC

Clinic will have injectable H1N1 flu vaccine. The clinic is for individuals in the CDC initial target groups. The Health Department asks for your cooperation in meeting the CDC target group criteria to receive vaccination. No appointment is necessary. Vaccines are free of charge.

The CDC initial target groups eligible for vaccination at this time are the following:

- Pregnant Women
- Persons who live with or provide care for infants aged <6 months (e.g., parents, siblings, and daycare providers)
- Children and young adults aged 6 months - 24 years
- Person aged 25-64 years who have medical conditions that put them at higher risk for influenza-related complications
- Health-care and emergency medical services personnel

Minor Children: Children under the age of 18 must be accompanied by a parent or legal guardian.

Clothing: Wear short sleeves for easy access to upper arm for injectable vaccine.

Wait time: There may be a wait. Bring items for children, such as water, snacks, and diapers.

Consent Forms: Consent forms for this clinic for individuals 4 years and older are on the Health Department H1N1 flu website at www.dekalbcountyhealthdepartment.org H1N1 link. This form can be printed, completed, and brought to the clinic. Forms for 6 months to 4 years will be available at the clinic.

Vaccination Fact Sheet: The Vaccination Fact Sheet can be reviewed at the Health Department website. You will not be given the vaccine if you are:

- (1) Allergic to eggs
- (2) Had a fever of 100° or greater in the past 24 hours
- (3) Have had a life threatening reaction after a dose of seasonal flu vaccine
